## MEINL INTRODUCES NEW Mb8 EFFECT- AND Mb8 HEAVY CYMBAL SETS

Meinl's line of Mb8 cymbals set the standard of sound and performance. Made from a premium B8 alloy, they are made in Meinl's German factory using high-tech computerized hammering methods. They offer the best possible sound of a B8 bronze in combination with an outstanding look. Cutting, explosive and crystal clear sounds set a new standard.

Responding to the demands of today's drummers and the company's artists, Meinl has introduced two new pre-packaged cymbal sets: The effect set includes a 10" Splash, an 18" China, and a free professional cymbal attachment. The heavy set includes a pair of 14" Heavy Hihats, an 18" Heavy Crash, a 22" Heavy Ride, and a free professional cymbal bag. Both sets come in a specially designed box featuring Meinl artist Barry Kerch of the U.S. band *Shinedown*.

The Mb8 effect cymbal set includes a 10" Splash, 18" China and a **free cymbal attachment.**

The Mb8 heavy cymbal set includes a 14" Heavy Hihat, 18" Heavy Crash, a 22" Heavy Ride and a **free cymbal bag.**
