MEINL INTRODUCES A NEW LINE OF SOUNDCASTER CYMBALS

SOUNDCASTER FUSION – EXPERIENCE BRILLIANCE AND WARMTH

The new line of Soundcaster Fusion cymbals is the result of extensive R&D efforts. Made from B12 bronze alloy, they are produced in Meinl's German state of the art factory using computerized hammering methods.

"They combine two different finishes in one cymbal." comments Stefan Mueller, Meinl's R&D expert. *"An unlathed, brilliant and a closed lathing finish in one cymbal. Along with its laser engraved logos, the cymbal has a distinctive look."*

The new Soundcaster Fusion cymbals sound rich, full, and warm with enhanced wash and a relatively short sustain. Their glassy yet warm tone cuts through any musical setting and is ideal for Heavy Metal, Rock, and Pop.

Available models include:

10" Splash	SF10S
14" Medium Hihat	SF14MH
16" Medium Crash	SF16MC
18" Medium Crash	SF18MC
18" China	SF18CH
20" Medium Ride	SF20MR
20" Powerful Ride	SF20PR
22" Powerful Ride	SF22PR
